1. Claim 37 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The only measuring or detecting device which has been disclosed is a bubble level. Applicant's arguments provided on September 23, 2002, explicitly state that a bubble level may be considered as either a detecting or measuring device. Lines 14-19 of page 5 of the specification explicitly state that the electrical contacts provide **"a power source to a light bulb contained within the light housing."** No other use for the contacts 46 are disclosed. Claim 36 sets forth a measuring device (bubble level), and claim 37 states that "the measuring device is in electrical communication with the battery." This limitation of claim 37 is **new matter**. Lines 14-19 of page 5 only give disclosure that the contacts are for the light source. **There is no original disclosure that the contacts 46 have any interaction with the bubble level. Therefore, claim 37 constitutes new matter.**
2. Claims 27, 28, 36, 40, 45, 50-52, 56-61, 65, 67-75, and 77-86 are allowed.
3. Applicant's arguments filed 12-10-04 have been fully considered but they are not persuasive. Applicant basically provided no arguments, choosing to say little more than the belief that the application was in condition for allowance. As seen from above, claim 37 still needs attention.
4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3722

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
